

DIRECTIONS FROM M60

Leave the M60 at Junction 8. If you are heading north or south on the M60 these exits have a long slip road, be careful not to miss them.

Follow the signs to CARRINGTON and LYMM, which put you on the A6144 (M) heading west. This is a new spur road (1.2 miles long) at the end of which is a set of traffic lights. Go straight through these on to the A6144 to another set of traffic lights (1.2 miles away). Go straight through these and the Carrington Business Park is 0.7 miles away on your left.

FROM THE M6

Both northbound and southbound traffic leave the M6 at Junction 20, however, the northbound traffic must be careful and follow the overhead gantry signs showing 'A50 Lymm'.

The southbound traffic has one easy normal slip road off the M6.

Both northbound and southbound exits lead to a roundabout above the M6. Exit this roundabout, heading east, on to the A50 FOLLOWING THE SIGNPOSTS TO Lymm. As you leave this roundabout be careful as the road to LYMM, which you will be taking, is only 100yds away on your left. This is the B5158.

Follow this winding country road for 1.7 miles to a true T Junction where you will turn left and then immediately right. You are now on the A6144 where the Carrington Business Park is located. Keep on this winding road for approximately 6 miles, going through Lymm village and Partington before reaching Carrington.

The entrance to the Carrington Business Park is the next complex on your right after Air Products which is also on your right.
