

Utility and Construction Training Ltd

Utility Safety, Health & Environment Awareness (Gas)

Who Should Attend

Operatives and Supervisors involved in gas network operations

Prerequisites

None

Aims

To provide training and assessment for the basic areas of Health, Safety and Environment for all operatives working on the National Grid SGN gas distribution network in the UK. This course has been designed to assure the basic standard of individuals working on site and to give them sufficient knowledge and awareness to ensure the safety of themselves and others.

This scheme is registered by Energy and Utility Skills.

Objectives

At the end of the day's training course candidates will be able to demonstrate an understanding of:

- Health and safety legislation
- Environment
- Accident reporting and First Aid
- Fire precautions
- COSHH
- Personal Protective Equipment
- Manual handling
- Noise and vibration
- PUWER and LOLER
- Excavations and confined spaces
- Avoidance of damage to underground plant
- Electricity at work
- Breathing apparatus
- Signing, lighting and guarding

Duration

1 Day
